

A413 closures at Small Dean Viaduct

As we go to press a fortnight of weekday full overnight closures of the A413 is planned, to allow the viaduct's parapet walls to be installed above the highway. We're also expecting future closures when the road is moved to its final alignment; and this is anticipated to happen in the autumn.

Wendover Green Tunnel progressing

The Wendover bypass was closed for a weekend in February to create a new temporary access track from the A413, to deliver components of the northern end of the Green Tunnel structure.

Meanwhile the foundations are being created for the final fourth phase of the tunnel under the bailey bridges at Ellesborough Road. The tunnel shell is expected to be completed next year with the road being restored onto its original alignment in 2028. We're in touch with the local residents now about the highway restoration plans which are being finalised in the next few months.

Rights of Way closures

Numerous rights of way have been closed to allow the railway to be constructed through the Chilterns, and there have been issues with providing good guidance to walkers about what routes are actually available.

With continued pressure on HS2 over the last two years on this we're pleased to report that they have now made available on online map system that can be accessed by smartphone

Foundations being laid for the final section of the Green Tunnel under the bridges at Ellesborough Road.

(see screenshot below). Walkers or cyclists can zoom in and see where they are located on the map.

The website can be accessed at <https://tinyurl.com/WendoverPROws> and there's a user guide on our www.whs2.org website. There is also a QR code (shown below) to simplify access for visitors to Wendover, and we're working with HS2 to get the signage beside the paths updated this spring.

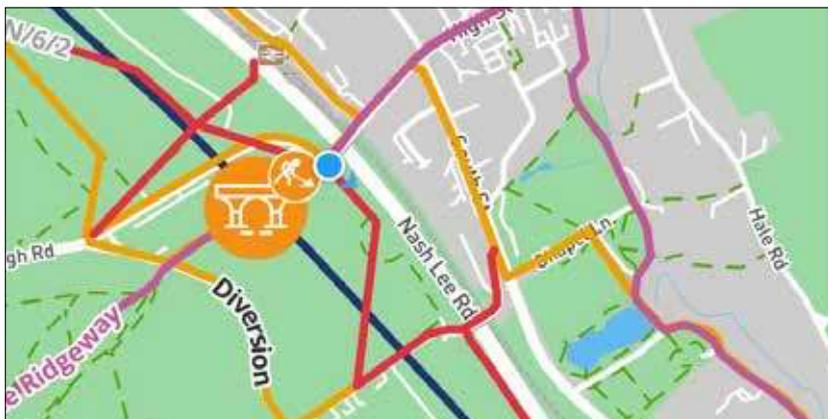

please contact the HS2 Helpdesk team on 08081 434 434 (which is available 24 hours a day) or email hs2enquiries@hs2.org.uk to get your issues resolved. It helps if you have photographic evidence and please get a complaint reference number so that we can follow up issues as needed.

Need our help?

If you need further help, want to join us, or have ideas and suggestions that would mitigate the community impact, then get in touch at enquiries@whs2.org.

Issues with HS2?

If you're affected by the construction activity,

- EXTENSIONS • NEW BUILD • CONVERSIONS
- REFURBISHMENT • RENOVATIONS • HARD LANDSCAPING
