

Ellesborough Road closures

During June there are going to be extended closures of Ellesborough Road as the various underground utility services are diverted along the temporary diversion route behind the cottages. Pedestrian access will be maintained throughout, but vehicles will be diverted via Terrick.

Work on the embankments for the bailey bridge is progressing, with drainage and underground electricity cables installed in May. The new road is due to open in September.

Nash Lee road diversions

The diversion of Nash Lee Road and Lane (see photo below) are due to come into use on the 4th of June, and the road between the Wendover Bypass roundabout and the Chiltern Brewery will

be closed the week before to alter the road layout. We've been assured that during this closure that Ellesborough Road will remain open to allow traffic to get to and from Butlers Cross.

Ongoing excavation

In addition to removal of topsoil we understand that the Environment Agency has allowed HS2 to excavate one metre of sub-soil for the Green Tunnel (see photo below), and its location alongside the bypass is now becoming more visible.

Further digging is dependent on HS2 coming up with an acceptable plan for handling any interference with the Coombe Hill aquifer. The HS2 Minister has agreed that we will see the plan once agreed, but no date has been set as yet.

Construction exhibition

HS2 are holding a second 'Meet the Team' exhibition at Lindengate on 15th June between 15:00 and 19:00 when you will be able to interrogate the project managers and engineers building the line. Their Mobile Information Centre will also be back outside Budgens on 12th July, 10:00 to 15:00. Details can be found at www.hs2.org.uk/events

Issues with HS2?

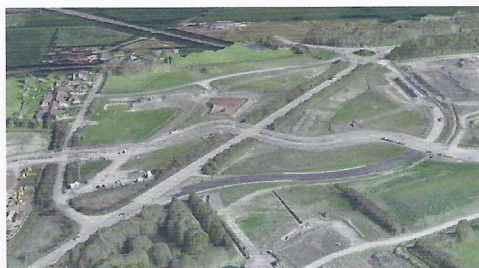

With increased construction activity over the Summer Months there's a likelihood of more issues arising. If you are affected, please contact the HS2 Helpdesk team on 08081 434 434 (available 24 hours a day) or email hs2enquiries@hs2.org.uk. It helps if you have photographic evidence and please get a complaint reference number so that we can follow up issues as needed.

Need our help?

If you need further help, want to join us, or have ideas and suggestions that would mitigate the community impact, then get in touch at enquiries@whs2.org.
